Cleaning Tips and Tricks- Part 2!

- 1) If you are having difficulty getting rid of grease stains on clothing try using flour on the stain and rubbing it in, then shake off the excess and put it in the wash as normal.
- 2) If your glassware is not as shiny as it used to be, try sprinkling a small amount of baking soda on the bottom of your dishwasher and put a cup of vinegar on the top shelf. Run the dishwasher on the highest temperature setting and turn it on. After the cycle is complete it will be beautiful and so will your dishes!
- 3) To remove stubborn bathtub rings, cut a grapefruit and sprinkle the cut side with some salt. Then rub the salted grapefruit into the stains to make them disappear! Remember to rinse off the salt and juice from the tub before using!
