Spring Cleaning Prep!

With temperatures becoming warmer check out these awesome spring cleaning tips you can do around your house to help bring the bright season of spring into your home!

- 1) **Remove water stains with lemon for a natural faucet fix:**
This spring, make faucets clean and sparkly by rubbing a lemon half on the water stains. The citric acid helps remove hard water marks.
- 2) **Use newspaper to clean dirty windows and mirrors:**
Mix ¼ cup of white vinegar, 2 cups of water and 2 teaspoons of liquid soap into a spray bottle. Spray the mixture onto the glass and scrub with newspaper for a streak-free window or mirror. The ink acts as a mild abrasive and allows you to make use of old newspapers.
- 3) **Recycle old socks to use as dusting mitts**
Cotton is a great fabric for trapping dust particles. Try using a (clean) pair of socks as dust mitts and you'll have more control over where dust goes.
